### Purpose

The Department of Government and Community Services (CGS) is pleased to present this report on the Government of Nunavut (GN)'s procurement and contracting activities for the 2005/06 fiscal year. This is the third year that the report has been produced and incorporates several enhancements since its initial production as summarized below.

Please Note:

The GN has introduced changes to the *Procurement Activity Report* (formerly known as the *Procurement & Contracting Report*) as part of its ongoing efforts to improve reporting and enhance transparency and accountability. These changes include the:

- the addition of a table showing the distribution of contracts by GN department;
- the inclusion of prior year comparisons, wherever possible, and
- the introduction of a \$5,000 threshold for contract reporting purposes consistent with recommendations provided by the members of the Standing Committee on Government Operations and Accountability.

### Objective

CGS is committed to ensuring fair value and ethical practices in meeting its responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut overall;
- Creating a fair and open environment for vendors;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet the GN's requirements.

### Introduction

The *Procurement Activity Report* presents statistical information and contract detail about GN contracts reported by GN departments to CGS's *Procurement, Logistics and Contract Support Services*.

It should be noted that contracts entered into by the GN Crown agencies and Legislative Assembly are not reported to CGS and are not included in this report.

Contract information provided in this report reflects contracts awarded and reported during

the 2005/2006 fiscal year. CGS can not guarantee the accuracy of contract information reported by departments, however, CGS makes best efforts to verify the information and ensure departments are fully aware of the reporting requirements set out in the applicable GN Policies and GN Contract Procedures Manual.

As part of its ongoing efforts to enhance the GN's reporting, CGS implemented a centralized Contract Reporting Database (CRDB) during 2005/06 to capture departmental input and facilitate greater ease in reporting. It is anticipated that in subsequent years, this tool may be further enhanced to enable more frequent reporting.

## Report Overview

This report focuses on the distribution of contracts awarded to corporations, organizations and sole proprietors.

Charts and graphs are used to illustrate the information presented.

CGS aims to enhance its reporting of the GN's contracting activities each year as part of its commitment to ensure transparency and accountability. Now in its third year of production, the report includes three year comparatives of key information such as contract types and methods wherever possible. Many factors can influence the comparability of data. Unusually high or low values for a given year in reported data can result from a blend of several external factors that may not necessarily be obvious to a reader including such significant items as annual variations in operating budgets or capital budgets, policy revisions and one-time initiatives. Users of this report should seek informed explanations respecting contributing factors before making judgments. Readers should not base judgments solely on the graphs and tables contained in this report. Readers should consider the many other reports and published program information made available by the GN.

When viewing such comparative information, it is important to note that certain factors such as planned changes in the GN's priorities from year to year can impact the relative magnitudes highlighted. For instance, a significant level of capital projects in one year would likely reveal a high level of public tendering which is the typical approach when awarding some large major works projects. A reduction in major works projects the following year, however, could reveal a related decrease in public tenders by value which is not necessarily indicative of any change in approach in the government's procurement and contracting practices. Therefore it is important to consider the broader perspective and context before making conclusions when assessing the comparative information presented.

Each year there is a portion of contracting activities which relate directly to the GN's ongoing role in maintaining essential services and basic programs and services. Other contracting activities are closely aligned to the cyclical nature of the GN's capital spending commitments. For instance, 2003/04 was a year which involved a high level of contract activity given that there was a number of major capital projects underway.

Major capital projects typically follow a period of planning which includes architectural and

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

---

engineering assessments prior to the period of intense construction activity starting. The following year would normally show a large reduction in contracting activity such as in 2005/06 which saw a decline in capital spending. Comparisons made across such years may reveal an unexpected change in the level of contracts which were competitively awarded as well as the relative percentage of contracting activities by type or method. A year in which there is a decline in a significant portion of capital spending which, through its size and magnitude, awarded through a request for proposal process can unduly influence the relative proportion or comparisons by percentage from year to year. Therefore the three year comparative information must be considered from a broader perspective and one should consider the overall influences prior making conclusions regarding the year to year comparisons.

It is worth noting that contract activities which relate to the GN's ongoing responsibility for maintaining basic services and safeguarding health and welfare of Nunavummiut may warrant special measures to ensure prompt attention and immediate action. Depending on the nature, this may warrant engagement of expertise or necessary services outside the normal competitive process. This can occur where there is only one qualified vendor available or where a delay could risk further hardship. Therefore in a year in which the level of capital spending is low, the proportion of non-competitively awarded contracts may appear high even though there has been no underlying change to the GN's procurement and contracting practices.

Readers are therefore cautioned from making specific conclusions upon reviewing the comparative information presented. As the GN's primary Contract Authority, CGS continues to monitor and assess annual indicators, enhance services offered to clients and client departments, and review its contracting activities regularly to ensure best practices across the GN.

**Appendix A** sets of the Definition of Terms.

**Appendix B** entitled *Sole Source Listing* sets out the total Award Value of Sole Source Contracts (> \$5,000) in ascending order.

**Appendix C** entitled *Contract Detailed Listing* provides a listing of all contracts (> \$5,000) and is presented by Contract Type in ascending Award Value.

The intent of these appendices is to enhance transparency of GN contracting and procurement practices by presenting meaningful and useful information on a timely basis. A threshold of \$5,000 has been established to provide focus on higher value contracts.

The contract details presented in this report reflect information recorded at the time of contract issuance. Information such as the Award Value represents the upper limit of a contract as established and agreed by the parties. It should be noted that the disclosure of proprietary information is typically restricted as the release of same may prove harmful to private sector interests and could expose the GN to legal and financial claims. CGS continues to operate under the advice and direction provided by the Department of Justice in this regard.

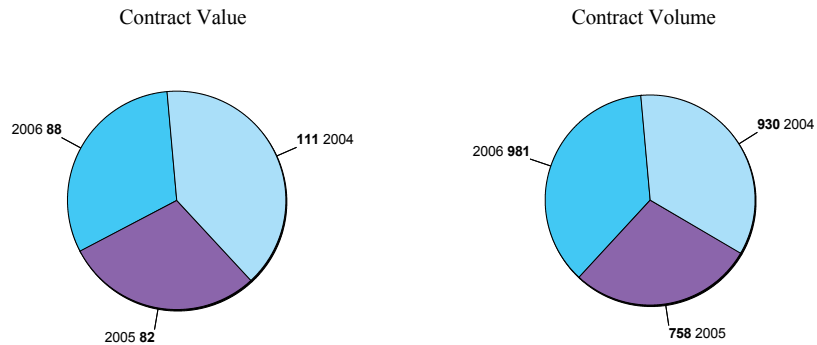

Recently the Standing Committee on Government Operations and Accountability has recommended that Government record and disclose contracts entered into by Executive Council in this annual report. Government is able to confirm that there were no contracts awarded by Executive Council for the reporting period.

### Summary

#### 1. All Contracts (> \$5,000)

The chart below "*Government of Nunavut Contracting Value & Volume*" summarizes the distribution of contracts awarded by value (or contract dollars) and volume (or quantity).

**Government of Nunavut  
Contracting Value & Volume  
2005/06**

The *Procurement Activity Report* has been produced for the past three fiscal years. The two charts above illustrate how the GN's contracting activities have changed over that time and this is further supported by the details provided in the following table. In terms of contract value, the highest level of contracting activity occurred in 2003/04. Contracting activity dropped substantially in 2004/05 and shows a 7% increase in 2005/06. In terms of volume, the number of contracts issued in 2005/06 represents a 23% increase in actual contracts since the prior year. It is worth noting that the average contract value has shown a steady downward trend from a high of \$119 thousand in 2003/04 to \$90 thousand in 2005/06, or a 24% decrease.

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

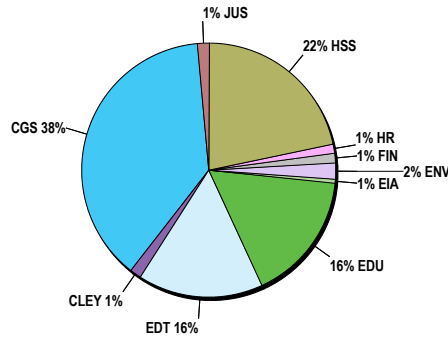

### All Contracts (Thousands)

Type	2005/06	2004/05	2003/04
Number of Contracts	981	758	930
Total Value	\$ 88,438	\$ 82,321	\$ 110,938
Avg Contract Value	\$ 90	\$ 109	\$ 119

\* Please note that the *Procurement Activity Report* was formerly known as the *Procurement & Contracting Report*.

The chart below "*Government of Nunavut Department Distribution ~ Value*" summarizes the distribution of contracts by department.

### Government of Nunavut Department Distribution - Value 2005/06

The chart above shows the level of contract activities each department engaged in during the 2005/06 fiscal year. Not surprisingly, those departments with responsibility for overseeing Nunavut's infrastructure, health, education and emergency services also engaged in higher levels of contract activities. Together, the Departments of Health and Social Services, Education, and Community and Government Services represent 63% of the GN's approved annual spending and, in turn, represent 76% of the GN's contracting activities. Specialized goods and services are often needed in order to address the needs of Nunavummiut, fulfill departmental mandates, and meet client service expectations and needs.

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

### Total Contract Distribution by Department ~ Value (Thousands)

Department	2005/06		2004/05	
Community and Government Services (CGS)	\$ 33,694	38 %	\$ 25,044	30 %
Culture, Language, Elders and Youth (CLEY)	1,284	1	290	-
Economic Development and Transportation (EDT)	14,100	16	3,825	5
Education (EDU)	14,560	16	20,067	24
Executive and Intergovernmental Affairs (EIA)	449	1	640	1
Environment (ENV)	1,807	2	1,136	1
Finance (FIN)	1,090	1	242	-
Human Resources (HR)	1,013	1	788	1
Health and Social Services (HSS)	19,128	22	14,458	18
Justice (JUS)	1,313	1	15,831	19
<b>Total</b>	<b>\$ 88,438</b>	<b>100 %</b>	<b>\$ 82,321</b>	<b>100 %</b>

In terms of annual comparisons, the Department of Community and Government Services experienced a 35% increase in contracting activities in 2005/06 related primarily to maintaining and upgrading community infrastructure and engaging property assessment services while the Department of Health and Social Services showed a 32% increase related to the provision of specialized health care and facilities for Nunavummiut. At the same time, the Departments of Education and Justice both experienced significant decreases, 27% less and 92% less respectively, in contracting value from the prior year due in large part to the completion of major construction projects. In 2005/06, the Department of Economic Development and Transportation reported contracting activities which were triple its 2004/05 level as it now includes contracts for the operation and maintenance of community airports, a total of approximately \$9.5 million annually.

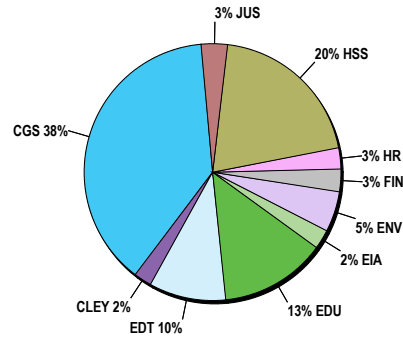

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

The chart below "Government of Nunavut Department Distribution ~ Volume" illustrates the distribution of contracts by department.

### Government of Nunavut Department Distribution - Volume 2005/06

As above, the Departments of Community and Government Services and Health and Social Services represent the highest level of contract activity by the GN given the specialized goods and services they require to meet the needs of Nunavummiut.

### Total Contract Distribution by Department ~ Volume

Department	2005/06		2004/05	
	Volume	Percentage	Volume	Percentage

## Procurement Activity Report

### 2. Contracting Types

The chart below "Government of Nunavut Contracting Value & Volume" summarizes the distribution of contracting method by value.

**Government of Nunavut  
Contracting Types - Value  
2005/06**

The GN's contracting activities by value increased by approximately \$5.6 million or 7% in 2005/06.

#### Contracting Types ~ Value (Thousands)

Type	2005/06		2004/05		2003/04	
Air Charter (AC)	\$ 1,275	1 %	\$ 1,165	1 %	\$ 4,289	4 %

<b>Total</b>	<b>\$ 88,438</b>	<b>100 %</b>	<b>\$ 82,861</b>	<b>100 %</b>	<b>\$ 110,939</b>	<b>100 %</b>

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

---

In the previous two years, construction contracts represented the majority of the GN's contracting activities based on value. This was reflective of the GN's commitment to major capital projects in the areas of health, education and justice which are now substantially complete. Construction contracts have therefore fallen from a high of \$74 million in 2003/04 to \$14.8 million in 2005/06 or just 17% of the GN's total contract activity.

In 2005/06, service contracts grew significantly to represent 45% of the GN's contracting activities during the year. The majority of this spending is directly related to the provision of essential services to Nunavummiut under the Departments of Health and Social Services, Economic Development and Transportation, and Education. Such services include residential or specialized care and student housing.

Purchase orders issued for the acquisition of goods needed to run government operations and provide programs and services rose to 16% from 11% in the prior year. By value, the Department of Community and Government Services issued just over half of the purchase orders to maintain and operate government facilities; while the Department of Health and Social Services and Economic Development and Transportation represented another 31% in acquiring specialized equipment for health and airport operations.

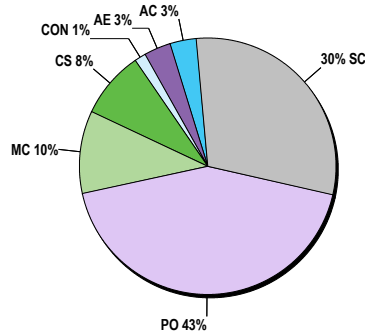

The GN secured a significantly higher level of architectural and engineering services in 2005/06 representing 9% of its contracting activities for the year. The majority was spent by the Department of Community and Government Services in addressing the territory's tank farms and waste water and solid waste systems requirements. A further 33% was spent by the Department of Education related to renovations and additions to Nunavut schools.

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

The chart below "*Government of Nunavut Contracting Types ~ Volume*" illustrates the distribution of contracting methodology.

**Government of Nunavut  
Contracting Types - Volume  
2005/06**

Each year, the majority of the GN's contracting activity by volume takes place through purchase orders followed next by service contracts which represent between 22% to 30% of same annually.

### Contracting Types ~ Volume (Thousands)

Type	2005/06		2004/05		2003/04	
Air Charter (AC)	33	3 %	39	5 %	104	11 %
Architectural/Engineering (AE)	33	3	10	1	20	2
Construction (CON)	14	1	15	2	24	3
Consulting services (CS)	83	8	44	6	31	3
Minor Construction or Maintenance Services (MC)	102	10	76	10	95	10
Purchase Orders (PO)	422	43	408	54	452	49
Service Contracts (SC)	294	30	166	22	204	22
<b>Total</b>	<b>981</b>	<b>100 %</b>	<b>758</b>	<b>100 %</b>	<b>930</b>	<b>100 %</b>

In 2005/06, the number of contracts awarded by the GN increased by 30% over the previous year but only slightly exceeded (by 6%) the 2003/04 level.

At the same time, the average contract value has decreased each year with the average contract value in 2005/06 being 17% lower than in 2004/05 and 24% lower than in 2003/04.

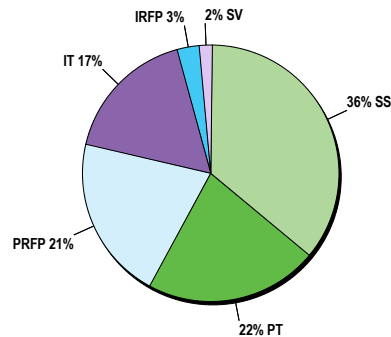

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

### 3. Contracting Methods

The chart below "Government of Nunavut Contracting Methods ~ Value" summarizes the distribution of contracting method by value.

**Government of Nunavut  
Contracting Methods - Value  
2005/06**

Of the sole source contracts issued in 2005/06, approximately 78% based on value were undertaken by the Departments of Health and Social Services and Economic Development and Transportation for the purposes of obtaining essential and specialized services. With respect to the Department of Health and Social Services, this entailed specialized care for Nunavummiut as well as professional services necessary for operating health facilities. For 2005/06, the Department of Economic Development and Transportation reported sole source contracts which are typically awarded directly to the hamlets for the maintenance and operation of airports, a vital transportation link for all Nunavut communities.

#### Contracting Methods ~ Value (Thousands)

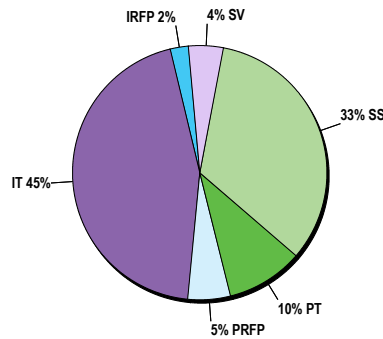

Method	2005/06		2004/05		2003/04	
Invitational RFP (IRFP)	\$ 2,513	3 %	\$ 2,269	3 %	\$ 1,691	2 %
Invitational Tender (IT)	15,158	17	9,436	11	10,234	9
Public RFP (PRFP)	18,335	21	13,138	16	5,870	5
Public Tender (PT)	19,337	22	48,228	59	77,725	70
Sole Source (SS)	31,683	36	8,780	11	13,745	12
Sole Supplier or Vendor (SV)	1,412	2	470	1	1,674	2
<b>Total</b>	<b>\$ 88,438</b>	<b>100 %</b>	<b>\$ 82,321</b>	<b>100 %</b>	<b>\$ 110,939</b>	<b>100 %</b>

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

The chart below *Government of Nunavut Contracting Methods ~ Volume* illustrates the distribution of contracting methodology.

**Government of Nunavut  
Contracting Methods - Volume  
2005/06**

On a volume basis, invitational tenders represent the greatest proportion of contracts awarded each year. The average contract value awarded through public offering was \$275 thousand.

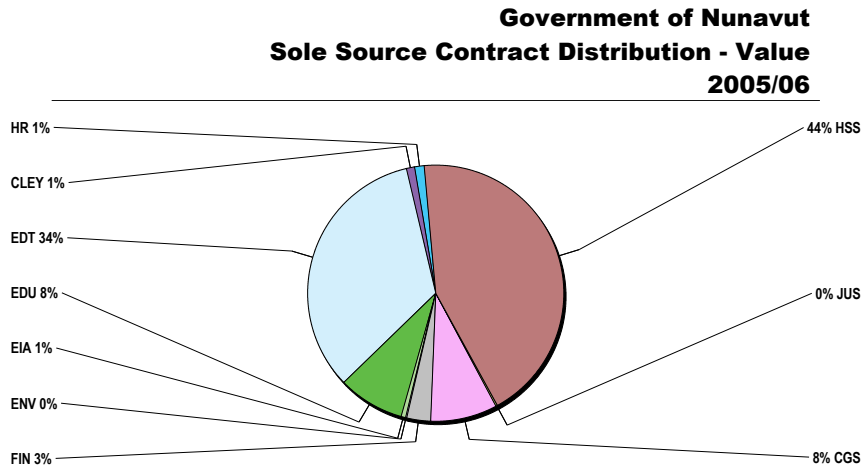

### Contracting Methods ~ Volume (Thousands)

Method	2005/06		2004/05		2003/04	
	Value	%	Value	%	Value	%
Invitational RFP (IRFP)	23	2 %	38	5 %	24	3 %
Invitational Tender (IT)	439	45	350	46	422	45
Public RFP (PRFP)	53	5	34	4	36	4
Public Tender (PT)	96	10	35	5	83	9
Sole Source (SS)	327	33	272	36	287	31
Sole Supplier or Vendor (SV)	43	4	29	4	78	8
<b>Total</b>	<b>981</b>	<b>100 %</b>	<b>758</b>	<b>100 %</b>	<b>930</b>	<b>100 %</b>

Government has improved reporting of contracting practices and has enhanced procurement services available across Government which will result in increased public contracting (PRFP & PT) of goods and services in the coming fiscal years. Consistent with public sector best practices and Government of Nunavut policy and objectives, Purchasing and Contracting Support Services continues to improve monitoring and implement measures to minimize the practice of sole sourcing contracts. This objective will be achieved through improving services offered to client departments, assisting to provide training opportunities to Government employees responsible for program delivery, through increasing management planning, and by sourcing suppliers and vendors diligently.

### 4. Sole Source Contract Distribution

The chart below "Government of Nunavut Sole Source Contract Distribution ~ Value" summarizes the distribution of contracting method by department.

It should be noted that certain functions and responsibilities that are unique to certain departments lead to prevalence and a higher propensity and reliance on both frequency and volume of this contracting methodology. Emergency situations with health and safety considerations or search and rescue may produce a need to enter into a contract quickly or limit alternatives or options for supply sources. Urgent situations involving the delivery of capital projects in the environmentally sensitive areas of sewage treatment, solid waste management and potable water have been contributing factors for sole source contracts on occasion. The arctic environment and a short construction season serve to complicate project delivery and contracting options.

The two departments which have the highest volume of sole source contracts (both in terms of value and volume) are the Departments of Health and Social Services and Economic Development and Transportation. Each of these departments have responsibilities for providing essential basic services which may impact the prevalence and frequency of this form of contracting method on occasion.

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

### Sole Source Contract Distribution ~ Value

(Thousands)					
Department	2005/06		2004/05		
Human Resources (HR)	\$	401	1 %	\$	3,284 37 %
Culture, Language, Elders and Youth (CLEY)		325	1		121 1
Economic Development and Transportation (EDT)		10,640	34		283 3
Education (EDU)		2,656	8		1,527 17
Executive and Intergovernmental Affairs (EIA)		179	1		428 5
Environment (ENV)		8	-		349 4
Finance (FIN)		956	3		131 1
Community and Government Services (CGS)		2,671	8		686 8
Justice (JUS)		60	-		1,583 18
Health and Social Services (HSS)		13,788	44		388 4
<b>Total</b>	<b>\$</b>	<b>31,684</b>	<b>100 %</b>	<b>\$</b>	<b>8,780 100 %</b>

Of the \$13.8 million that the Department of Health and Social Services awarded through sole source contracts in 2005/06, just over 60% went toward securing specialized and/or residential care and another 20% went toward the development of the new health facilities. As for the Department of Economic Development and Transportation, 83% of the \$10.6 million awarded to Hamlet's through sole source contracts related to essential services for the maintenance and operation of Nunavut's airports.

It is worth noting that this is the third year that the *Procurement Activity Report* has been provided for tabling in the Legislative Assembly and each year departmental reporting continues to improve. For the 2005/06 fiscal year, the Department of Economic Development and Transportation has reported the annual contracts with the hamlets for the maintenance and operation of airports in those communities. Further, the Department of Health and Social Services has reported contracts for specialized residential care and the development of health care facilities. Depending on the particular circumstances of each case, access to specialized services may be limited but must be secured. A more accurate comparison to the 2003/04 figure of \$8.8 million would be \$10 million for 2005/06 or a 14% increase when such contracts entered into by the Departments of Economic Development and Transportation and Health and Social Services are excluded.

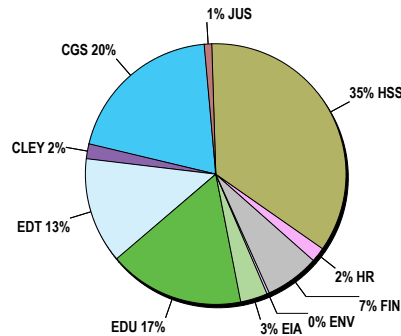

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

The chart below "Government of Nunavut Sole Source Contract Distribution ~ Volume" illustrates the distribution of contracting methodology.

**Government of Nunavut  
Sole Source Contract Distribution - Volume  
2005/06**

On a proportionate basis, the Department of Health and Social Services issued the majority of sole source contracts, followed by Department of Community and Government Services, and Education.

### Sole Source Contract Distribution ~ Volume (Thousands)

Department	2005/06		2004/05	
Community and Government Services (CGS)	65	20 %	71	26 %
Culture, Language, Elders and Youth (CLEY)	6	2	8	3
Economic Development and Transportation (EDT)	43	13	6	2
Education (EDU)	55	17	65	24
Executive and Intergovernmental Affairs (EIA)	11	3	22	8
Environment (ENV)	1	-	18	7
Finance (FIN)	22	7	5	2
Human Resources (HR)	6	2	21	8
Health and Social Services (HSS)	115	35	34	13
Justice (JUS)	3	1	22	8
<b>Total</b>	<b>327</b>	<b>100 %</b>	<b>272</b>	<b>100 %</b>

The actual number of sole source contracts issued during the 2005/06 fiscal year was consistent with the prior year, but overall decreased on a proportionate basis when considered in the context of total contract awards. The three departments responsible for providing essential services sometimes on an emergency - namely the Departments of Community and Government Services, Health and Social Services and Economic Development and Transportation - basis engaged in the greatest number of sole source contracts during the 2005/06 fiscal year.

## Appendix A: Definition of Terms and Abbreviations

### Terms

**"Goods"**: In this report, "Goods" means contracts for the purchase of goods that are primarily entered into by *Procurement, Logistics and Contract Support Services* on behalf of Government of Nunavut departments, generally referred to as Purchase Orders.

**"Invitational Tender or RFP"**: An Invitation is a contracting method where tender or RFP documents are sent only to contractors or suppliers specifically selected to submit tenders or proposals.

**"Invitational Tender"**: An Invitational Tender (IT) are those requests for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders. For readers not familiar with GN contracting practices, please note that outside Nunavut, Invitational Tenders are generally referred to as Solicited Tenders.

**"Invitational Request For Proposal"**: An Invitational Request For Proposal (IRFP) are those requests which are sent to contractors or suppliers selected to submit proposals.

**"Purchase Orders"**: In this report, "Purchase Orders" means contracts for purchase of goods, primarily entered on behalf of Government of Nunavut departments.

**"Public Tender"**: A Public Tender are those tenders which are publicly advertised. For readers not familiar with GN contracting practices, please note that outside Nunavut, Public Tenders are generally referred to as Invitational Tenders.

**"Request For Proposal"**: An Request For Proposal (RFP) has been defined as follows, "when the government knows what end result should be, but not necessarily how best to achieve it; therefore Government seeks *proposals* on methods, ability, and price.

**"Sole Source"**: A Sole Source is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the goods, services or construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed

# GOVERNMENT OF NUNAVUT

## Procurement Activity Report

---

\$25,000; or

(d) or any other type of contract that will not exceed \$5,000 in value.

**"Tender"**: Tenders may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
